## **Terminology**

**SWD** - "Short way of diamond, or design" dimension; first number in style designation.

**LWD** - "Long way of diamond, or design" dimension; not used in style designation.

**SWO** - "Short way of opening" dimension; used to indicate clear opening in short direction.

**LWO** - "Long way of opening" dimension; used to indicate clear opening in long direction.

**Strand Thickness** - Equal to the thickness of the sheet of metal used. The gauge number or decimal thickness is usually the second number in the style designation.

**Strand Width** - Amount of metal fed under the dies to produce one strand.
